I bought this car with 40, miles on it. Around 70, miles I had to replace my intake manifold gasket. I took it to a mechanic, not the dealership. He installed a quality after market gasket. I had brake rotor issues with this car until I did the brakes myself. I replaced the rotors with quality after market. The wheel lugs need to be torqued to proper specs, this will prolong rotor life. You need to flush and fill the radiator every 1 or 2 years despite dexcool specs. I keep it very clean. This car requires regular oil changes and cooling flushes. Synthetic oil and regular cooling flushes will keep it going. By using synthetic oil you don't need to change every 3K. Let the sensor work. This car drives and handles great. My first experience was questionable on rusty brakes from sitting in the dealership yard. I got new brakes on it and tires which made it drive beautifully. To be honest, I saw the car and loved it - the exterior is so noticable but not outrageous. You can point out people who have the Impala be it from looking to the front or back. I like that feel it gives of owning a car with a titled history and a better future. The space, reliability, and fantastic miles per gallon it gets sold me in the end. As a college student and a festive problem child who loves to drive - this is the ultimate car to fit all my needs. With an added driver in the family, I just purchased an '05 Impala just like it! Well, the car is still running perfectly! It stills has its original exhaust system, and continues to run well with regular oil changes and tire rotations. Otherwise, the dang car just keeps going! As we approach the sixth anniversary of purchase, we are delighted to report that this has been the best sedan we have owned! We finally replaced the original tires and breaks a little more than a year ago. Speaking of tires, my earlier review spoke of front end road noise. This disappeared with new tires. The car was originally equipped with cheap Uniroyals. The car still looks great, and runs and runs and runs! We have done nothing but routine maintenance since , and we still love it! We purchased this Impala pre-owned in April. The fuel economy is impressive, particularly on long drives out of state. The spaceous cabin and trunk are a plus with the kids. It's nice to be able to drive something sensible yet sporty, and not have to drive a minivan! I'm fine with the build quality. It's a car! And since all cars depreciate and break, I don't want to pay more than I should. Popular searches. My notifications My Account. Used Chevrolet Impala 4dr Sedan 3. More about the Impala. View Photos.
